Teleperformance Pocatello, ID AND Call Center
TSR

my job is good, even better if it stays around
The service's and products and people sold to are good
my job is important very important for self job
satisfaction, money to pay my bills support my family
also benefit the community & economy in various ways.
Jobs in this area are very hard to come by, if job was
lost I've not a clue what I'd do for getting another
because this area is strapped for jobs let alone a
good job. I can't even get a job for what I'm trained
I very much oppose the national DNC list &
restrictions on predictive dialers and proposed
modifications to the FTC rules.

These rules and regulation would put a
useless kind on this community beings this
call center employs around 300 employees
Thank you for your full consideration on
this topic

Re: CG Docket No. 02-278

Rules and Regulations Implementing the Telephone Consumer
Protection Act of 1991

My name is Gwendolyn Tundo and I work in the Teleperformance USA center located in Pocatello Idaho. I am currently a telephone sales representative. My job allows me to take care of my financial obligations and attend a local college. Many telemarketers are in the same boat ~~and~~ as I and without this industry would be lost. Among my fellow employees are people supporting their families. With the economy as unforgiving as it currently is without this job many of these people would be in the unemployment line and collecting welfare.

By installing the National Do-Not-Call Registry you would be pushing many of these people to the unemployment line. The company-specific do-not-call lists are working just fine and I see no reason to move to a national registry. By doing so~~s~~ it can only hurt the economy more.

Thank you for your full consideration on this topic.

CG Docket #02-278

I Jori Henderson work for Teleperformance USA in Parkville
Idaho, I am a Supervisor here.

I Supervise around 40 people, teaching and
making them Better Sales people.

I have been working here a short time, but
however have moved to be a Supervisor in a short time.
My job is one of the best around great coworkers,
great staff and great environment to work in. Since
I have worked here the Quality of Product and Service
Provide are Excellent. I have been on the phones as well
selling and have gotten a lot of Compliments on what
a great job I was doing.

This job means more to me and my
daughters well being than anyone will ever know.
This job means my daughter and I are not living
on public assistance in need of no ones help. I
have been more Independent than I have been in
my life. losing my job will result in, ~~the~~ my
daughter and myself going on state assistance which
will result on the tax payers paying more for me
and my child. Along with all the others on this
Call Center. The point is to come Self Effence and
~~Don't~~ not Co dependent on the State System.

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

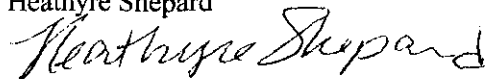

To whom it may concern,

I am a supervisor for Teleperformance USA in Pocatello, Id. I am very concerned about the impact that the National Do Not call list will have on telemarketing and our economy. I have worked with my company for the past three years while going to school. I need my job to get through school. There are many people here who are not able to work at any other type of job. They also need to work to support themselves and their families. In Pocatello, Teleperformance employs a lot of people. Many teenagers have jobs here as well as working parents. It would greatly hurt our economy if we had to let these people go.

I love my job here and I fully support the products that we offer to our customers. I have had telemarketers call me at home and it is very easy to simply say "no thank you" and hang up the phone. It is also just as effective to have company-specific Do Not Call lists. This will still protect consumers while at the same time protecting the telemarketing industry and the hundreds of thousands of people that need these jobs.

Thank you for your full consideration on this topic.

Rules and Regulation's Implementing the Telephone Consumer Protection Act of 1991

To Whom It May Concern:

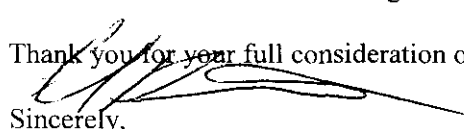

My name is Derek Bennett. I have worked for Teleperformance USA for just over a year. I started out as a telephone sales representative and was promoted to supervisor then Assistant Facility Manager in February of this year.

Our center primarily works with credit card leads and offers reasonably priced discount programs. The vast majority of the people that we contact are not disturbed by our calls. Our representatives with strictly enforced standards of professionalism, quality, and honesty. Our night shift consists primarily of high school students, who must work in order to help their families make ends meet. The balance includes Veterans, single parents, and disabled adults. The area is economically depressed, and closing our center would have a devastating effect on these hard working people, their families, and the local economy.

Personally, losing my job would force me to relocate and I have a wife and child and both of our families live in this community and it would be very hard to relocate with no money and no friends to help us in this time of need. I am the sole provider for my family as my wife has a disability that does not allow her work, even on a part time level. My son is 18 months old, has many friends in our area and we would like to see him go to school here. I also have some family that is getting up in years, of which my wife and myself have to help out on a regular basis with every day things of life. As you can see losing my job and having to relocate would have a devastating effect on both my immediate family as well as those with whom my wife and myself must help to get by.

In closing I oppose the national DNC list as restrictions on predictive dialers. Our company maintains a Do Not Call list and I support Teleperformance USA's And the American Telemarketing Association's proposed modifications to the FTC rules.

Thank you for your full consideration on this topic.

Sincerely,

Derek Bennett, Assistant Facility Manager

To whom It may concern:

I work at teleperformance USA in Lewiston Idaho. I am a Telemarketing Service Representative (TSR). I am currently a new employee and I am very happy with the work that I am performing here. I was very impressed with the quality and standards that Teleperformance USA has in regard to the courtesy and professionalism it shows to the Customers nationwide.

I am also impressed with the products and services that Teleperformance USA promotes I see them as legitimate and wholesome. I get the same impression from the customers that I sell them to. They also appreciate the courtesy and respect that the TSR's show them.

My position at Teleperformance is very important to me and my family. My employment here has made it possible for me to pay for and attend college as well as support my family. Employment that fits schooling schedules is very difficult to find in our world today.

I am opposed to the National Do Not Call list and the restrictions on Predictive Dialers. I believe that customers concerns about telemarketing can be resolved through the standards that companies such as Teleperformance USA have. I believe that if all telemarketing companies would adopt such standards of courtesy and respect toward their customers that there would be no reason to have and Do Not Call List. I fully support Teleperformance USA and the American Telemarketing Association.

Thank you for your full consideration on this topic.

Re: CG Docket # 02-278
Rules + Regulations Implementing the Telephone
Consumer Protection Act of 1991

My name is Jennifer Putnam.
I work for Teleperformance USA in Lewiston, Idaho.
I am a Telephone Service Representative. I have worked
here for four years. I like my job. Most of the people
I talk to are very polite and courteous. I think the
main thing we as telemarketers need to realize is that
~~there~~ there are a lot of people who would + do want
to ~~hear~~ hear what we have to say to them. We offer
them the opportunity to receive great savings with
the products we offer.

My job is very important to me and my family.
If I were to lose my job it would not just be
a hardship for my family, it would be a catastrophe.
I think a lot of the customers we call don't realize
that this job is feeding our families, paying our bills
and putting roofs over our heads. Also in our
community Teleperformance USA is a major employer

and provides jobs to many people.

I oppose the National DNC list and restrictions on Predictive Dialers because I think there are many people who appreciate our calls + the offers we have for them. If people don't wish to hear what we say, they can just say no thank-you. That's what I do. Telemarketers get calls at home also. I don't have my name on the DNC list, and I realize that if I have credit cards I will get calls about new offers + services.

I believe that Teleperformance USA + the American Telemarketing Association's proposed modifications to the FTC rules will be sufficient.

Regarding: CG Docket No. 02-278

Hello my name is Carol Langheir and I work at Teleperformance USA. in Leviston, ID. I am working at this call center as a service rep. I present savings programs to the people we call, among other things such as survey, I do an honest job telling people about programs that can save them money. I know these programs can help people as I get a lot of feedback.

I need this job. It helps our family get by. For the area it pays fairly well.

Please consider we are honest people doing a honest job.

Gentlemen:

I am employed by Teleperformance USA in Lewiston, Idaho. I work as a phone telemarketer and have worked for them the past six months and am very thankful for the job I have as it supplements my income. I am 67 years old and on Social Security which does not provide an adequate amount of support for my family to live on. I am opposed to the new regulations that have been proposed as I feel they could cost jobs and hurt our economy. I am in support of the American Telemarketing Association's proposed modifications to the FTC rules. Thank you for your consideration on this topic.

I feel that this job is important to me since it my paycheck. With out it find a new job. Since I live in a small town it really hard find a new job.

I feel that this job have made me better person. Since working with the public for the first time both good and bad. It have made me ~~be~~ able to be ~~calm~~ calm under stressfull situation with upset people. Also my English have improved and learn to nice to ~~people~~ people.

I like some of the program that can save money to costumers. But some of the do not make sense to me.

Instead of a National DNC and restrictions on Predictive Dialer. Since it would basically make telemarketing company go under. Also make making people to lose there jobs I think it would better to make it mandatory to state which company your are calling from and improve the speed to take off the DNC it should not take up to 3 months. I think would benefit every one

I work in Louisiana, I left at Teleperformance USA as a Telephone Sales Representative. In TSR. August of 2002 due to circumstances beyond my control I needed to go to work. At the age of 73 yrs and not having worked for 30 years. Life looked very grim for me. I applied at Teleperformance USA. They accepted me. I am doing something my age can handle. I enjoy talking to the many people each day I feel what the programs we sell will benefit all who buy. This job has meant my independence. 2003 my SS was up \$1.00 per month. I need my job. There must be ways for people who do not want to be forced out to earn and contribute in so many ways each and daily.

Thank you for your consideration. This

To Whom It May Concern:

My name is Harry Caramanos. I have worked for Teleperformance USA in Lewiston Idaho since September of 2002. I started as a telephone sales representative and was promoted to night shift Supervisor in March.

Our center works primarily with credit card leads and offers reasonably priced discount programs. The vast majority of the people that we contact are not disturbed by our calls. Our representatives work within rigidly enforced standards of professionalism, quality, and honesty. Our night shift consists mostly of high school students, who must work in order to help their families make ends meet. The balance includes Veterans, single parents, and disabled adults. The area is economically depressed, and closing our center would have a devastating effect on these hard working people, their families, and the local economy.

Personally, losing my job would force me to relocate, as the local job market has little to offer someone of my background. I take great pride in guiding these young adults. For many, this is their first job. For some, their only other option is welfare.

In closing, I oppose the national DNC List and restrictions on predictive dialers. Our company maintains a Do Not Call list and I support Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.

Thank you for your full consideration on this topic.

Sincerely,

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

I work at Teleperformance USA in Lewiston ID. I am the am ABM (Assistant Branch Manager) I enjoy my job and enjoy working with all the TSRs. We offer great money saving programs to the public. They have the opportunity to use the programs to see if they will save money with them, if not they can call and cancel and not be charged the full price or be committed to keep it if it does not work for them. If for any reason I would have to give up my job it would hurt my family very much. I bring home the biggest part of the household income because my husband has to pay a large amount of child support, and if I didn't have my job or had to take time to look for another job we wouldn't be able to pay our bills and would have to get assistance from the state.

When we have customers on the line who tell the TSR's to get a real job I wonder what they call a real job. We work very hard to maintain a professional but fun place to work for people who in some cases wouldn't be able to get a job anywhere else. We have older people who work for us, this job works well for them because they do not have to stand all day or lift heavy objects and they get to interact with young people and it helps keep them feeling young. They do not have to depend on their family to take care of them. Also we have many school kids who work here to help their families out, and the alternative would be working in fast food. I believe we can offer these kids much more than flipping burgers.

In closing I oppose the national DNC list and restrictions on Predictive Dialers and I support the Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.

Thank you for your full consideration on this topic.

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

I am currently employed at Teleperformance USA call center located in Lewiston, Idaho. I have worked for this company for slightly over two and a half years and in that time the positions I have held include: Telephone Sales Representative, Information Technician, Shift Supervisor and, at present, Branch Trainer. I believe that a very important message that I convey to my trainees and co-workers is maintaining an exceptional level of professionalism. With this as a significant factor to the success of the industry, it helps to uphold the reputation of the client as well as to protect the trust of the consumer. The products and services that our client offers are of outstanding quality. However, it is understandable that there truly is no such thing as a "one-size-fits-all" product or service. For most consumers, it is as simple as saying "no thanks" or "I'm not interested" if they feel that what we offer them would not be beneficial to them. It is no doubt that there are those that are angry and sometimes rude to telemarketers, but regardless, as mentioned before, a professional, positive attitude will be able to handle the pleasant or the not-so-pleasant.

Unquestionably, the rules and regulations that have been imposed upon this industry have been designed for a reason, whether for the protection of the business, the consumer, or both. And, of course, without rules, there is chaos. It is my opinion, nonetheless, that there are times that a select few can easily make a "mountain out of a molehill" so to speak and attempt to impose additional requirements that seem to be "overkill." With that said, I would like to state that adding the "National DNC list" and/or the restrictions on "Predictive Dialers" would be similar to killing a fly with a shot-gun. It would seem that there would be a much better alternative to solve the issues and concerns of the public. I therefore encourage a thorough review of "Teleperformance USA's" and the "American Telemarketing Association's" proposed modifications to the FTC rules.

Thank you for your consideration on this topic.

Sincerely,

Martin Hughes

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

I am currently employed at TELEPERFORMANCE USA call center located in Lewiston, ID. I have worked for this company for over 5 years. I started on the phones as a Sales Rep and was able to work up to the Branch Recruiter position. This is something that TPUSA offers its employees, the opportunity to grow with a major Telemarketing Co.

As the Branch Recruiter I see the effect on the economy that we are instrumental in gainfully employing people, getting them off Public Assistance, and helping them gain valuable work skills and ethics. We hire people that can be trained, but we also hire people who otherwise my have trouble finding a full time job that does offer benefits. We have had several people in their seventies because of financial hardships their retirement years our often filled with the fear of "How are they going to pay their bills?" We also hire people who have little to no education, little or no job experience, and little or no job opportunities.

This is a Professional and Honest Company. We offer services over the phone to people who are looking for ways to save money. As a professional and honest company we also adhere to our Policies and State Restrictions.

Unquestionably, the Rules and Regulations that have been imposed upon this industry have been designed for a reason, whether for the protection of the business, the consumer, or both. Without rules and regulations we would certainly have problems. It is my opinion, that there are times that a select few can easily make something out of nothing. In an attempt to impose additional requirements that seem to be overkill. I would like to state that adding the "NATIONAL DNC list" and restrictions on "PREDICTIVE DIALERS" would harm an industry that puts millions to work everyday, (and off the rosters for assistance). There has to be a better alternative. I encourage a thorough review of "Teleperformance USA's and the "American Telemarketing Association's" proposed modifications to the FTC rues.

Thank you for your consideration to this matter.

To whom it may Concern,

My name is Heather Rupe + I work at Teleperformance USA + I do both outbound + inbound calls. The job I do may not be what you or a lot of people would think of as rewarding. Most people think that telemarketing is nothing more than an annoyance. It is more than that, it is a job anyone no matter age, race or qualification you are or have you can do the job. Teleperformance USA is a place that no matter who you are you can feel accepted. This job puts food on thousands of peoples tables + pays their bills so we can survive. With the job market the way it is now good jobs or bad ones are hard to find. Yet all people look at is an unwanted annoyance, nobody thinks of the lives + families this nationwide DNC would affect. If it was put into effect thousands would be out of jobs + many would have to go on welfare. So instead of hurting the economy more by destroying jobs, let me keep mine so I can pay my bills,

Just. Someone trying to
Survive,

Rules and Regulations implementing the
Telephone Consumer Protection Act of 1991

I am working at Teleperformance
~~USA~~ in Pocatello Idaho as a CSR. I
am very grateful of my job and I
have alot of appreciation for my
jobs and co-workers. I am a single
mother taking care of my son sup
myself and also trying to pay rent
and graduate at the same time. My
job is very important to me. I
would be out of luck if I lost
my job. I have bills, rent, and my
15 month old son to take care of. I
oppose to the National DFB list and the
restrictions on Predictive Dialers. I really
support Teleperformance ~~USA~~ and the
American Telemarketing Association. Thank
you for your full consideration on this
topic.
